

FOR TEACHERS

BIRTHDAY POP-UP CARD

INSTRUCTIONS SHEET

BEFORE THE LESSON:

Photocopy 1 pop-up card page for each student; make an example card to show the class.

MATERIALS:

For this project each student will need:

- 1 A4 printed pop-up card page
- 1 A4 colored bristol page
- scissors, glue, crayons or colored markers

TIME:

1 class period

- 1 Look at picture 1. Fold each page in half. Cut the printed page along the dotted line. Cut the bristol along the fold and put it aside--you won't need it until later.
- 2 Fold the top part of the printed paper in half along the line. Make sure that you fold so that the print is on the outside. (Don't worry--the print will be covered with the bristol paper in Step 8).
- 3 Cut 2 lines across the folded paper, along the 2 short dotted lines.
- 4 Fold the strip you've just made away from the cuts.
- 5 Turn the card so that the cuts are on top. Now open it.
- 6 Pull the folded strip into the card. When you fold the card, the strip will fold flat.
- 7 Color and decorate the card, the trees and the "Happy Birthday" rectangle. Cut out the trees, and glue them to the bottom-half of the folded strip--the bottom edge should lie against the inside of the card. Cut out the "Happy Birthday" rectangle, fill in the "To" and "From" blanks, and glue to the inside of the card.
- 8 Finally, glue the colored bristol paper to the outside of the card. Color and decorate as you like.

PRINT 1 COPY FOR EACH STUDENT

**HAPPY
BIRTHDAY**
